Grade 1 Reading | Reading Comprehension

Name: _____ Date: _____

How Are These Facts Connected?

Read the facts. Draw a line to match each cause to what happens.

The Moon is in the sky at night.
The Moon has no light of its own.
The Sun lights up the Moon.
That is why the Moon shines.
The Moon moves around the Earth.
As it moves, we see more of the bright part, or less of it.
That is why the Moon looks different each night.

Why it happens	What happens
The Sun lights up the Moon.	The Moon shines.
The Moon moves around the Earth.	It looks different each night.

Why does the Moon shine?

The Moon shines because _____

Adult: The child reads the facts first.
One fact makes another fact happen.
