Pushes & Pulls

Stop or Turn!

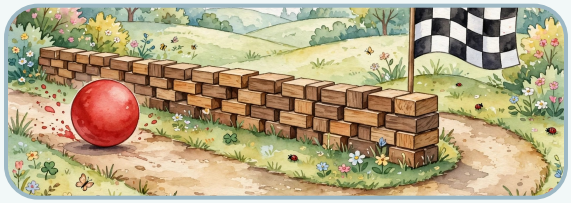

Name: _____ Date: _____

Choose a job. Build it. Test it!

1. CHOOSE your job — circle one:

STOP the ball

TURN the ball

2. DRAW your design:

You can use:

BLOCKS

BOOKS

CARDBOARD

PILLOW

3. TEST it 3 times. Circle what happened:

1 What happened?

◯ WORKED! ◯ NOT YET

I saw:

◯ It stopped!
◯ It turned!
◯ It kept going!

2 What happened?

◯ WORKED! ◯ NOT YET

I saw:

◯ It stopped!
◯ It turned!
◯ It kept going!

3 What happened?

◯ WORKED! ◯ NOT YET

I saw:

◯ It stopped!
◯ It turned!
◯ It kept going!

4. Tell a grown-up: Did it work?

_____

Adult: Fair test — same ball, same ramp or same gentle push, rolled the same way all 3 times. Circle what your child saw each time. If it did not work, change the design and test again: that is what engineers do.
