Group Differently, Same Total

Grade 1 Math | Supplement

Name: _____ Date: _____

Group the numbers a different way. The total stays the same.

Worked example: 2 + 6 + 4

2 6 4

(2 + 6) + 4 = 12

2 + (6 + 4) = 2 + 10 = 12

Same total!

Now you try.

1. (5 + 7) + 3 = ____ 5 + (7 + 3) = 5 + 10 = ____

Circle: Same Different

2. (3 + 4) + 5 = ____ 3 + (4 + 5) = 3 + 9 = ____

Circle: Same Different

3. (4 + 3) + 6 = ____ 4 + (3 + 6) = 4 + 9 = ____

Circle: Same Different

One Fact, Two Ways

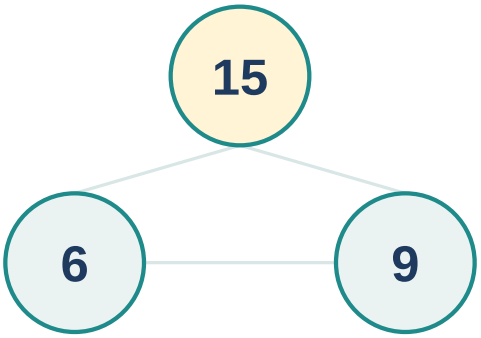
Grade 1 Math | Supplement

Name: _____ Date: _____

One family makes four facts. Use addition to check subtraction.

1. Complete the family.

Family 15: 6 and 9 make 15.



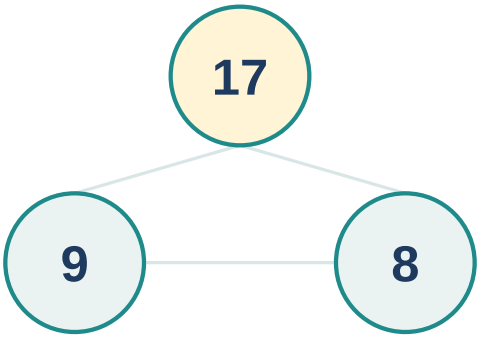
6 + 9 = 15

15 - 9 = 6

☐ + ☐ = ☐

☐ - ☐ = ☐

Family 17: 9 and 8 make 17.



☐ + ☐ = ☐

☐ - ☐ = ☐

☐ + ☐ = ☐

☐ - ☐ = ☐

2. Think addition to subtract.

Think: 9 + ☐ = 16

16 - 9 = ☐

Think: 7 + ☐ = 15

15 - 7 = ☐

Write the addition first, then the answer.
