Weather Watchers

Build & Prepare

Name: _____ Date: _____

The sun warms an ice cube. Build a shade!

DRAW your shade:

I used:

- ☐ CARDBOARD
- ☐ PAPER
- ☐ CLOTH
- ☐ STICKS
- ☐ A BOX

After 15 minutes, DRAW both cubes:

Under MY shade

In the sun

Tell a grown-up: Did your shade work?

Adult: Use two same-size ice cubes on identical trays, in the same outdoor area. Put one under your child's shade and the other in direct sunlight. After about 15 minutes, draw both cubes and scribe your child's words. Record what really happened, even if the shade did not work.
