Answer Key

Main Topic & Key Details - for parents

Name: _____ Date: _____

Main Topic & Key Details: Answer Key

WHAT THIS PACK TEACHES

This pack teaches your child to understand nonfiction, texts that tell true facts. Your child learns to find the main topic (what a whole text is about), pick out key details (the facts it tells), answer questions from the text, see how one fact makes another happen, and retell what they learned, in their own words.

Page 1 - What Is This Text About? (Bats)

Main topic: circle Bats. Every sentence tells about bats, so bats are the main topic. Night and bugs are only details, not the whole topic.
When do bats fly? At night. (Accept: in the night.)
What do many bats eat? Bugs. (Accept: insects.)
When do bats sleep? In the day. (Accept: during the day.)

Page 2 - Find the Key Details (How a Butterfly Grows)

Main topic: a butterfly (how a butterfly grows).
Circle three facts: the egg is on a leaf; the caterpillar eats leaves; a butterfly comes out of a chrysalis. Do NOT circle the caterpillar eating flowers or the butterfly sleeping in a nest, the text never says those things.

Page 3 - Ask and Answer (Your Heart)

Where is your heart? In your chest.
What does your heart do? It pumps blood all around your body.
When does your heart beat fast? When you run and play.

Page 4 - How Are These Facts Connected? (The Moon)

The Sun lights up the Moon goes to the Moon shines.
The Moon moves around the Earth goes to it looks different each night.
The Moon shines because the Sun lights it up. (Accept: because the Sun lights up the Moon.)

Page 5 - Tell It Back (Trains)

Main topic: trains.
Three facts: any three facts stated in the text, for example, trains run on tracks; the engine pulls the cars; trains stop at stations; people get on and off at a station. Accept any three facts from the text, in the child's own words.

Grade 1 Reading: Main Topic and Key Details. For parents, not for the child.
