LEARNING
MADE SIMPLE

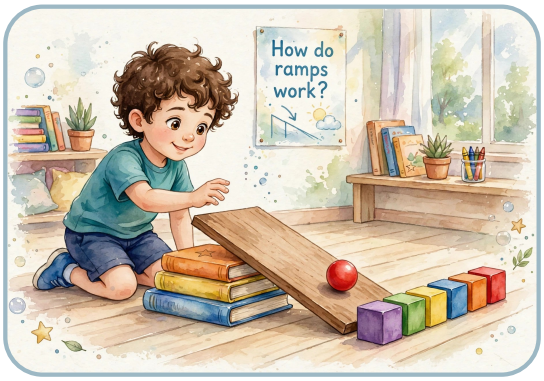

Pushes & Pulls

Let's Roll!

Name: _____ Date: _____

Build a ramp. Roll 3 things. Record how far!

You need: a board or big book, books to lift one end, cubes, and 3 things that roll.

1. Put one thing at the top.
2. Let go — no push! It rolls.
3. Measure with cubes.
4. Draw it. Color its squares.

What I rolled	How far it rolled (in cubes)
Draw it here	Color one square for each cube.
Draw it here	Color one square for each cube.
Draw it here	Color one square for each cube.

Adult: Same ramp, same starting spot at the top for every roll — and always just let go, with no extra push. Different objects roll different distances; that is the observation. Ask: "Which rolled farthest?"
