Pushes & Pulls

Push or Pull?

Name: _____ Date: _____

Look at each picture. Circle PUSH or PULL!

PUSH PULL

PUSH PULL

PUSH PULL

PUSH PULL

Adult: Ask for each picture: "Is the child pushing or pulling? How can you tell?" A push moves an object away from the child. A pull moves an object toward the child — the wagon and the sled are pulled along behind.

Pushes & Pulls

Let's Roll!

Name: _____ Date: _____

Build a ramp. Roll 3 things. Record how far!

You need: a board or big book, books to lift one end, cubes, and 3 things that roll.

1. Put one thing at the top.
2. Let go — no push! It rolls.
3. Measure with cubes.
4. Draw it. Color its squares.

What I rolled	How far it rolled (in cubes)
Draw it here	Color one square for each cube.
Draw it here	Color one square for each cube.
Draw it here	Color one square for each cube.

Adult: Same ramp, same starting spot at the top for every roll — and always just let go, with no extra push. Different objects roll different distances; that is the observation. Ask: "Which rolled farthest?"

Pushes & Pulls

Gentle Push, Strong Push

Name: _____ Date: _____

Same ball. Same floor. Two pushes!

Use the SAME ball on the SAME floor both times.

Push 1: gentle.
Measure with cubes.
Push 2: stronger.
Measure again.

Push 1 — GENTLE

Color one square for each cube.

Push 2 — STRONG

Color one square for each cube.

I noticed:

_____

_____

Adult: Mark where the ball starts so both pushes begin at the same spot. Write your child's exact words for "I noticed." There is no printed answer — the measurements your child made are the result.

Pushes & Pulls

Change the Direction

Name: _____ Date: _____

Push the same ball from two sides!

Push from this side	PREDICT — my arrow	RECORD — what happened
TRIAL 1  from the left	Draw your arrow here	Draw your arrow here
Trial 2 — from the other side		
TRIAL 2  from the right	Draw your arrow here	Draw your arrow here

Adult: Use the SAME ball both times. Trial 1 pushes it from the left; Trial 2 pushes it from the right. Predict first, then push, then record.

My Motion Discovery

Name: _____ Date: _____

Ask a question. Test it. Tell what you found!

My question: _____

What I tested

What I saw

I found out:

_____

_____

Adult: Question ideas: “Will a heavy box move?” “What rolls down the ramp?” Test together with safe household objects. Write your child's question and their exact words for “I found out.” Drawing is the record; talking is the science.
