Weather Watchers

Build & Prepare

Name: _____ Date: _____

Check the forecast! Circle what you need.

TOMORROW'S FORECAST

Rainy and windy

all day long!

What will you WEAR?

What will you TAKE?

Adult: Read the forecast together: rainy and windy all day. Your child circles the raincoat and the umbrella. A forecast tells us what weather is coming, so we can get ready before it starts — before a storm, grown-ups bring outdoor toys inside and keep a flashlight handy.

Weather Watchers

Build & Prepare

Name: _____ Date: _____

The sun warms an ice cube. Build a shade!

DRAW your shade:

I used:

- ☐  CARDBOARD
- ☐  PAPER
- ☐  CLOTH
- ☐  STICKS
- ☐  A BOX

After 15 minutes, DRAW both cubes:

Under MY shade

In the sun

Tell a grown-up: Did your shade work?

Adult: Build the shade over one ice cube on a tray; put the twin cube in full sun. Wait about 15 minutes, then draw both cubes. Scribe your child's exact words — there is no wrong result: a melted cube is data too.
