Pushes & Pulls

Push or Pull?

Name: _____ Date: _____

Look at each picture. Circle PUSH or PULL!

PUSH PULL

PUSH PULL

PUSH PULL

PUSH PULL

Adult: Ask for each picture: “Is the child pushing or pulling? How can you tell?”
Pushing moves things away from the body. Pulling moves things toward the body.

Pushes & Pulls

Let's Roll!

Name: _____ Date: _____

Build a ramp. Roll 3 things. Record how far!

You need: a board or big book, books to lift one end, cubes, and 3 things that roll.

1. **Roll one thing down the ramp.**
2. **Lay cubes from the ramp to where it stopped.**
3. **Draw it. Color its squares.**

What I rolled	How far it rolled (in cubes)
Draw it here	Color one square for each cube.
Draw it here	Color one square for each cube.
Draw it here	Color one square for each cube.

Adult: Keep the ramp the same for all three rolls. Objects roll different distances — that is the observation. Ask: "Which rolled farthest? How do you know?"

Pushes & Pulls

Gentle Push, Strong Push

Name: _____ Date: _____

Same ball. Same floor. Two pushes!

Use the SAME ball on the SAME floor both times.

Push 1: gentle.
Measure with cubes.
Push 2: stronger.
Measure again.

Push 1 — GENTLE

Color one square for each cube.

Push 2 — STRONG

Color one square for each cube.

I noticed:

_____

_____

Adult: Mark where the ball starts so both pushes begin at the same spot. Write your child's exact words for "I noticed." There is no printed answer — the measurements your child made are the result.

Pushes & Pulls

Change the Direction

Name: _____ Date: _____

Which way will the ball roll? Predict, test, record!

1. PREDICT — my arrow

Draw your arrow here

2. TEST

Push the ball!

Watch it go

3. RECORD — what happened

Draw your arrow here

Adult: Put the ball on the floor. Your child draws the arrow they think the ball will follow, then pushes the ball from behind it. The arrow shows the push's direction.

My Motion Discovery

Name: _____ Date: _____

Ask a question. Test it. Tell what you found!

My question: _____

What I tested

What I saw

I found out:

_____

_____

Adult: Question ideas: “Will a heavy box move?” “What rolls down the ramp?” Test together with safe household objects. Write your child's question and their exact words for “I found out.” Drawing is the record; talking is the science.
