Weather Watchers

My Week of Weather

Name: _____ Date: _____

Look outside every day. Record the real weather!

	Day 1	Day 2	Day 3	Day 4	Day 5
Draw the sky					
Circle the weather					
Warm or cool?	WARM / COOL	WARM / COOL	WARM / COOL	WARM / COOL	WARM / COOL

This week I noticed: _____

Adult: One column per day, all week. Look outside together: draw the sky, circle the weather you really see, and circle how the air feels. Write the day's name on the short line. Nothing is filled in ahead — your child's records are the data. Scribe their exact words for "I noticed."

Weather Detectives

Name: _____ Date: _____

Count the days on this pretend calendar!

A pretend calendar — two weeks

 **Sunny** How many? ☐

 **Cloudy** How many? ☐

 **Rainy** How many? ☐

 **Snowy** How many? ☐

Which weather happened MOST?

Which weather happened FEWEST?

Adult: This calendar is pretend, for counting practice. Counts: sunny 5, cloudy 4, rainy 3, snowy 2. Talk about the pattern: "Most days were sunny. Snow came on only two days."

Weather Watchers

Sunlight & Shade

Name: _____ Date: _____

Two ice cubes: one in the sun, one in the shade!

PREDICT: Which cube will melt first? Circle it.

SUNNY side	SHADY side

TEST & RECORD: Wait 15 minutes. Draw both cubes now.

SUN cube	SHADE cube

Adult: Use two cubes the SAME size, on the same kind of plate, started at the same time — one in sunshine, one in shade. This is a looking-only investigation: never touch sun-heated surfaces to test them. Record what your child actually sees, then ask: "What happened? Why do you think so?"

Weather Measurements

Name: _____ Date: _____

A thermometer tells how warm the air is!

The red climbs higher when the air is warmer.

Snowy morning

Sunny beach day

Frosty window

Hot picnic day

Adult: These thermometers have no numbers — just compare: red higher means warmer AIR (different from sunlight warming a surface, Page 3).
Answers: snowy — cooler; beach day — warmer; frosty — cooler; picnic — warmer.

Stay Safe in Stormy Weather

Name: _____ Date: _____

Circle the SAFE choice in each picture pair!

Thunder! You are playing outside.

Lightning is flashing!

Snow is falling hard.

The sidewalk is icy.

Adult: Thunder and lightning — go inside a building or a hard-top car. Never shelter under a tree or an open picnic shelter. In snow, dress warmly from head to toe, and walk slowly on ice holding a grown-up's hand.
